

Are you tired of everyone playing the blame game when things aren't getting done or when something goes wrong? Are you frustrated with team members who say one thing and do another? Are you wondering why there is never enough time to do it right the first time, but there is always time to do it again? What would it be like if you had a team of Game Changers?

Moving from *reasons, alibis and excuses* to **RESULTS!**

WHO IS A GAME CHANGER?

A Game Changer is the person who **positively transforms** every relationship and situation by accepting **Personal Responsibility** for their professional, relational, financial and physical wellness. They purposefully choose to disrupt the status quo and **Live in the Chaos™** by challenging norms and rewriting their stories focused on achieving their **positive outcomes**.

WHAT IS THE GAME CHANGER PROGRAM?

The Game Changer Program is a two-day course that is focused on **developing the WHOLE** person and teaches transformational skills which allow individuals to communicate more effectively, **accept responsibility for their choices and actions**, and uncover their hidden potential. Participants leave the training with **their own specific outcomes** that will set them apart from the spectators still sitting on the sidelines.

WHAT DOES THE GAME CHANGER PROGRAM TEACH?

- Be outcome-focused and get results
- Accept personal responsibility for your choices
- Improve communication through responsive listening
- Rewrite your stories and focus on the positive
